Experience

Full Stack Engineer Intern | *AI Sigma Labs* **Jul 2026 – Present**

- Develop and ship full-stack features using **Java/Spring Boot** and React, integrating REST APIs and database-backed workflows end to end.

Founder & CTO | *FEMUR Studio* **Nov 2025 – Aug 2026**

- Led a **6-member team** that delivered **15+ full-stack products** across Australia, Canada, and the US, coordinating product delivery and technical execution.

Open-Source Contributor | *OpenMRS* | *PR #6228* **Sept 2025 – Present**

- Refactored 1 **Java** test into **4 focused methods**, resolved 1 FIXME, and verified **55 unit tests** with Maven through an open-source pull request.

Full Stack Web Development Intern | *Expertmind Technologies LLP — Bilaspur, India* **May 2025 – Jul 2025**

- Built and deployed **3+ e-commerce applications** with React and Spring Boot, integrating REST APIs and MongoDB in team-based development.

Professional Summary

Full-stack engineer and CSE student with hands-on experience delivering **15+ real-world projects** across e-commerce, web platforms, and automation systems. Proficient in **Java/Spring Boot**, React, TypeScript, JavaScript, Python, REST APIs, and SQL/NoSQL databases, with experience building and deploying end-to-end applications and scalable backend workflows. Strong foundation in **data structures, algorithms, OOP, DBMS, operating systems, and computer networks**, with practical experience in Git, Docker, Kubernetes, CI/CD, testing, and production engineering.

Projects

KuberFashion – E-Commerce Platform | Live | *React, Java 21, Spring Boot, PostgreSQL, Redis, Kafka, Docker, GCP, ELK Stack, OAuth2*

- Built a production-ready e-commerce platform with **Java 21 + Spring Boot** for catalogs, carts, orders, and admin operations serving **50+ daily orders**.
- Cut API latency by **~40%** using Redis caching and Kafka-based asynchronous processing; added Docker, CI/CD, Flyway, and ELK Stack for observability.
- Implemented secure REST APIs and database-backed workflows with Spring Security, JWT, OAuth2, and PostgreSQL transactions for reliable end-to-end service integration.

Link Management – SEO Workflow & Link Building Platform | Live | *React, Node.js, Express, PostgreSQL, Redis, Socket.io*

- Built an **11-stage** workflow for **60K+ active bloggers** with **6-tier RBAC**, enforcing role-based data isolation across the application.
- Automated backlink validation with Cheerio.js and secured REST APIs with JWT/rate limiting; processed payouts with PostgreSQL ACID transactions.
- Developed full-stack workflows with React, Node.js, Express, PostgreSQL, Redis, and Socket.io for scalable user and application operations.

OutreachOS – AI-Powered Outbound Automation Platform | Live | *Next.js, TypeScript, PostgreSQL, Redis, BullMQ, Prisma, Gemini AI*

- Automated outreach for **1000+ campaigns** using TypeScript/Node.js, BullMQ + Redis workers, and API integrations for email and WhatsApp delivery.
- Cut lead-enrichment time by **80%** with a Python + Playwright automation service and integrated backend workflows.
- Built a unified dashboard with Next.js, TypeScript, PostgreSQL, and Prisma for campaign, mailbox, and reply-tracking workflows.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, SQL, C
Backend & APIs: Spring Boot, Node.js, Express.js, REST APIs, Microservices
Frontend: React, Next.js, TypeScript, Tailwind CSS
Data & Messaging: PostgreSQL, MongoDB, MySQL, Redis, Apache Kafka
Cloud & DevOps: Docker, Kubernetes, GCP, CI/CD, Flyway, ELK Stack
Security & Engineering: JWT, OAuth2, Spring Security, Git, Maven, Unit Testing, Postman, Swagger/OpenAPI
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Achievements

- Won **IEEE Hackathon 2025** among **900+ teams** by building a startup-incubator platform connecting early-stage startups with funding opportunities and reaching national-round selection.
- Led **150+ students** as Placement Cell Lead and CSE Tech Team Lead at Techfest 2025, coordinating industry drives and technical events across GGU.
- Solved **350+ LeetCode DSA problems** covering graphs, recursion, dynamic programming, concurrency, and distributed systems.

Education

B.Tech in Computer Science & Engineering | *GGU (Central University), Bilaspur, India* | **Oct 2023 – May 2027**
CGPA: 7.4/10
